

Dear Parents,

I have been experimenting with an app called Class Dojo. In my remaining two weeks with the class, I would like to introduce this and get your feedback. This app is similar to Facebook but is only accessible to emails that are invited to the app. The app is accessible on smartphones and tablets. Each day, I will post pictures of the things the students are doing that day. You are welcome to "like" and comment on the posts. This app also allows me to message you individually to send short notes and pictures. If you are interested, please check the box below and provide an email address I can use to invite you to the app. If you check yes, please download the Class Dojo app to your smartphone or tablet.

Thank you,

Miss Zimmer
